QUALITY POLICY

Turnab is a complete partner in cutting machining of steel, stainless steel, brass, plastic etc.

The company and each of the employees must meet customers requirements, expectations, and needs. This presupposes that we deliver products with the right quality, at the right time and the right price. By product is meant both goods and services.

To achieve this result, Turnab must work for:

- **A working quality system.**
- **Responsibility for the customer's wishes.**
- **Mutual trust within the company.**
- **Competence development through training and recruitment.**
- **Work for a constantly improving quality.**
- **Live up to the requirements of our stakeholders and meet all applicable requirements for authorities.**
